

Module 5 Assignment

Select 1

I have used Oracle and Sql Developer Client.

1. SELECT Statement

```
SELECT EventRequest.EventNo,DateHeld,Count(*)  
AS CountOfEventPlans  
  
FROM EventRequest,EventPlan  
  
WHERE EventRequest.EventNo =  
EventPlan.EventNo  
  
AND WorkDate BETWEEN '01-DEC-13' AND '31-  
DEC-13'  
  
GROUP BY EventRequest.EventNo,DateHeld  
  
HAVING Count(*) > 1;
```

2. Snapshot of Result

The screenshot shows the SQL Developer interface. The top pane displays the SQL query, and the bottom pane shows the results of the query execution. The results are displayed in a table with three columns: EVENTNO, DATEHELD, and COUNTOFEVENTPLANS. The table contains one row of data: E106, 12-DEC-13, and 2. The status bar at the bottom indicates that the task was completed in 2.594 seconds.

EVENTNO	DATEHELD	COUNTOFEVENTPLANS
E106	12-DEC-13	2
