

Module 5 Assignment

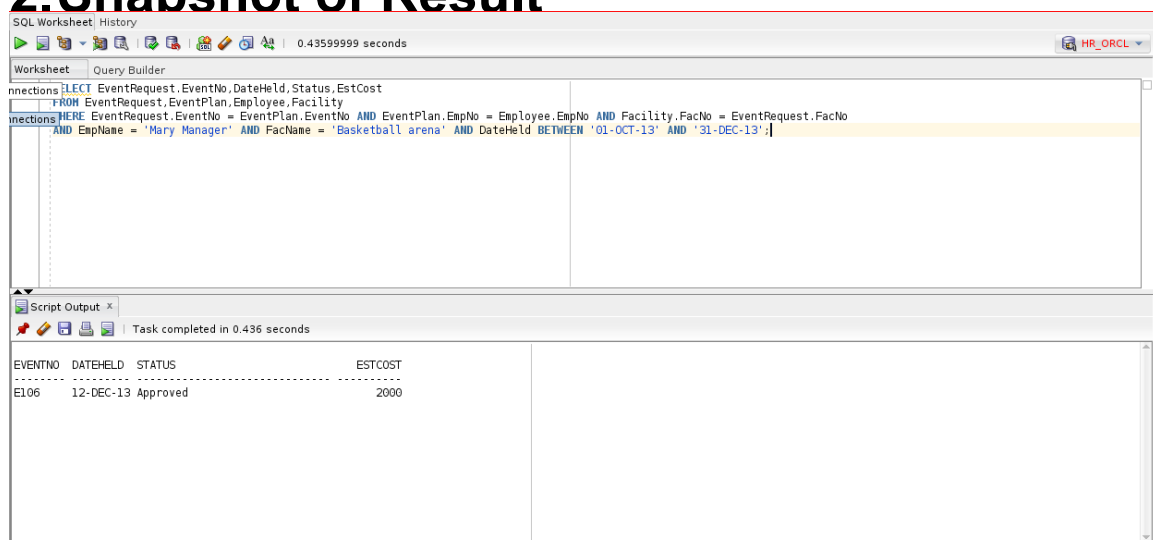

Select 3

I have used Oracle and Sql Developer Client.

1. SELECT Statement

```
SELECT
EventRequest.EventNo,DateHeld,Status,EstCost
FROM EventRequest,EventPlan,Employee,Facility
WHERE EventRequest.EventNo =
EventPlan.EventNo AND EventPlan.EmpNo =
Employee.EmpNo AND Facility.FacNo =
EventRequest.FacNo
AND EmpName = 'Mary Manager' AND FacName =
'Basketball arena' AND DateHeld BETWEEN '01-
OCT-13' AND '31-DEC-13';
```

2. Snapshot of Result

The screenshot shows the SQL Developer interface. The top pane displays the following SQL query:

```
SELECT EventRequest.EventNo,DateHeld,Status,EstCost
FROM EventRequest,EventPlan,Employee,Facility
WHERE EventRequest.EventNo = EventPlan.EventNo AND EventPlan.EmpNo = Employee.EmpNo AND Facility.FacNo = EventRequest.FacNo
AND EmpName = 'Mary Manager' AND FacName = 'Basketball arena' AND DateHeld BETWEEN '01-OCT-13' AND '31-DEC-13';
```

The bottom pane, titled 'Script Output', shows the results of the query. The task was completed in 0.436 seconds. The results are displayed in a table with the following columns: EVENTNO, DATEHELD, STATUS, and ESTCOST.

EVENTNO	DATEHELD	STATUS	ESTCOST
E106	12-DEC-13	Approved	2000
